1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose monitoring of VOCs and/or the use of vapor traps.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification, page 1, line 5 after " 2001 " - - - , and now patent no. 6,666,068 - - - has been entered.

4. The above change was made to complete the continuity data.

5. Claims 1-35 have been allowed.

6. The following is an examiner's statement of reasons for allowance: None of the prior art of record showed or made obvious a vapor trap for detecting VOCs with a

housing at least partially buried in the ground and structured as claimed in combination with: a vapor containment mechanism detachably connected to the housing as set forth in claim 1; a vapor transmissive material surrounding the end buried in the ground and a sealing material thereabove and the opposite end of the housing as in claim 17; a coupling, a vapor sampling mechanism, and a plug, interconnected as claimed in claim 24; and the particular seven additional elements arranged, interacting, and interconnected as set forth in claim 29.

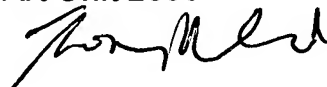

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Noland whose telephone number is (571) 272-2202. The examiner can normally be reached on weekdays from 9:00 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Hezron E. Williams, can be reached on (571) 272-2208.

The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
